

CAREERS – POWERED BY SOLARCRAFT

Solar Electric PV and Thermal Install, Service and Maintenance Technician

SolarCraft – Novato, CA

We are looking for partners, not employees.

For more than 35 years, SolarCraft has been committed to providing solar and clean energy solutions that deliver the highest financial and environmental benefits possible to our North Bay community; providing renewable energy for homes and businesses that is far cheaper than fossil-fuel based utility power, reduces pollution directly into our environment, and improve energy resilience (back-up power, energy management, reduce grid infrastructure). We reduce the cost of living and the cost of doing business locally, improve environmental health locally, create great jobs locally, and demonstrate leadership and responsible living in our community and beyond.

Everyone counts at SolarCraft. We are 100% Employee-Owned and all employees are given equal chance to be partners in our business, earn competitive wages with performance-based incentives, PTO, Holidays, and Benefits. There is great opportunity to advance within SolarCraft and to work in the rapidly evolving clean energy industry, where every day we are helping change the world we live in.

Requirements:

- Analyzing performance of existing systems
- Installing and servicing monitoring equipment
- Diagnosing and correcting service issues
- System upgrade scheduling, procurement, warranty returns and credits
- Quality control
- Strong organizational, technical, and troubleshooting skills
- Knowledge of both NEC and UBC
- Knowledge and experience installing grid tied solar electric systems
- Excellent written and verbal communication skills
- Proficient in MS Office, including Project

Additional Experience a Plus:

- Experience and certification from major solar electric equipment manufacturers
- Experience in installation of solar electric monitoring systems
- Experience in technical service and repair of complex products or systems
- NABCEP Certification
- California Electrician Certification
- CAD experience (AutoCAD and/or Sketch-up)

This is a great position for someone with solar installation experience and good analytical skills that desires a more flexible and challenging position with a company focused on quality customer service.

Excellent Compensation commensurate with experience

Benefits include: Medical, Dental, Vision, 401k program, paid vacations and holidays.

Please forward cover letter and resume to jobs@solarcraft.com

Job Type: Full-time
